pricing reference guide for the pharmaceutical industry in the United States. Prior to January 1, 2020, the Organization estimated the fair value of donated pharmaceuticals using "average wholesale price." Management determined that this change in accounting principle is preferable because management believes wholesale acquisition cost more accurately reflects the estimated fair value of pharmaceuticals and medical supplies and, therefore, enhances the overall accuracy of its financial statements. This change in accounting principle had no effect on the Organization's net assets as of January 1, 2020. The Organization considers the valuation practices used for noncash contributions to be consistent with industry standards.
